Printable cube net

40 mm sides / One piece / Seven glue tabs

Cut solid lines. Score and fold dashed lines. Match each tab to the edge with the same letter.

Keep the printed letters inside for a blank cube. Colour the reverse before assembling.

Assembly order

1. Wrap the four walls into a square tube. Glue seam G and let it hold.

2. Fold tabs D, E and F inward and close the bottom over them.

3. Check the corners. Fold tabs A, B and C inward and close the top.
