Square iris folding pattern

Print at actual size. Check the scale bar before cutting.

Keep this numbered guide intact

Card front: cut out the inner square

Colour key

1, 5, 9	2, 6, 10	3, 7, 11	4, 8, 12

1. Cut out the card front and its 56 mm window. Place it face down on the numbered guide with the square edges aligned.
2. Cut twelve strips about 80 x 40 mm and fold them lengthwise. Assign one colour to each column of the key.
3. Cover area 1 with the folded edge along its inner line. Tape the loose ends to the card back. Repeat in number order, leaving the centre open.
4. Cover the centre with a 45 mm square of contrasting paper. Lift the work off the guide and turn it over to see the spiral.

25 mm
