Six-petal quilling flower

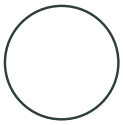

Print at actual size. Use 3 mm paper strips. Keep the 25 mm scale bar for your first check.

Place the coils here

Layout height 44 mm. Petal points meet the centre.

Shape gauges

15 mm loose coil

8 mm centre

Pinched petal

18 mm long

Six petal strips, 150 x 3 mm

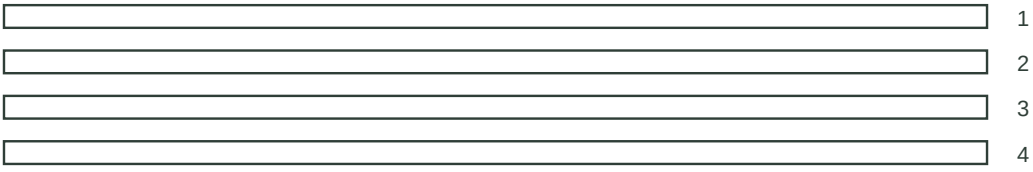

Cut the six long strips. Roll each to the 15 mm gauge, seal the end and pinch one point.

Four centre strips, 130 x 3 mm

Wind tightly. Overlap the next strip by 2 mm as needed. Stop at the 8 mm gauge and trim.

If thin paper needs another turn, cut a 3 mm strip from the margin.

Assemble on the layout

Cover the layout with release film. Glue each petal point to the centre.

Let the joins set before lifting the flower onto a card.
